

Sohail Khan

+91 8851392698

sohailkhanbrock@gmail.com

Computer Science Student | Python Developer | Machine Learning Enthusiast

<https://www.linkedin.com/in/sohail-khan-048976262/>

New Delhi, 110012

Education

S.K.R. Public School (2018-2019)

Secondary Education: CBSE Board, 80.4%

Inder Puri, New Delhi

Rajinder Nagar, Delhi

Salwan Boys Senior Secondary School (2020-2021)

Senior Secondary Education: CBSE Board, 78.6%

Galgotias University (2022-2026)

Bachelor of Technology - Computer Science and Engineering

Gautam Budh Nagar, Uttar Pradesh

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Operating Systems, Databases, Computer Networks, Machine Learning, Internet of Things (IoT), Cloud Computing

Projects

Fake News Detection System | Python, Machine Learning, NLP, Flask

<https://github.com/sohailkhan-code/fake-news-detection>

- Developed a machine learning model to classify news articles as **real or fake** using NLP techniques.
- Performed **text preprocessing and TF-IDF vectorization** for feature extraction from textual data.
- Trained classification models to improve prediction accuracy.
- Integrated the model with a **Flask-based web interface** for user input and prediction.

Credit Card Fraud Detection | Python, Scikit-learn, Flask, HTML/CSS/JS

<https://github.com/sohailkhan-code/CreditCardFraudDetection>

- Built an end-to-end ML pipeline to detect fraudulent credit card transactions on a highly imbalanced dataset of 284,807 records (0.17% fraud rate)
- Trained and compared Logistic Regression, Decision Tree, and Random Forest; achieved 99.96% accuracy and AUC-ROC of 0.979 with Random Forest
- Deployed model via Flask REST API and built an interactive web dashboard (HTML/CSS/JS) with real-time transaction prediction.

Skills

Programming Languages: Python, C++ | **Database:** MySQL

Web Development: HTML, CSS, JavaScript | **Frameworks:** FastAPI

Artificial Intelligence & Machine Learning: Machine Learning, Natural Language Processing (NLP)

Core Computer Science: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Cloud: Cloud Computing (AWS Basics)

Development Tools: GitHub, VS Code

Interpersonal Skills

Communication, Collaboration, Adaptability, Problem-Solving, Project Management

Summary

Software developer with a strong foundation in **Python, C++, and web technologies**, specializing in building scalable applications using **Flask and MySQL**. Experienced in applying machine learning and **natural language processing techniques** to develop intelligent solutions. Committed to leveraging technical expertise and cloud fundamentals to drive innovation and enhance system performance.

Certifications

AWS AI-ML VIRTUAL INTERNSHIP - Eduskills

Machine Learning virtual internship- Codsoft

Compiler Design- NPTEL
